DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This frame church is situated in a hilly area on North Glade Road at the intersection with Rt. 495. The church faces south.

The church is a one-story, one-bay by four-bay structure with a gable roof, gable end front. A smaller, single story gable end front section is located on the facade and houses the entrance. The double door entrance has a pointed arched stained-glass transom. Windows are located, one on each side elevation, east and west, of the facade section.

2/2 stained-glass windows with pointed arched windows and pedimented arched window heads light the church.

Bracketing is located in the eaves. The facade gable end has stick bracketing. All the gable ends are shingled, the facade shingles are octagonal-shaped. A single, round, stained-glass window appears on the center of the rear, north, elevation.

The church rests on a stone foundation with the exception of the small front section which rests on cinderblocks. Asbestos shingles cover the church, with asphalt shingles on the roof.
